

IIJA Funding for Vermont with the US DOT

Have you been wondering what the **Infrastructure Investment and Jobs Act (IIJA)** really means for Vermont's municipal transportation projects? Join VLCT for a presentation by the **U.S. Department of Transportation (US DOT)** to learn how this important piece of legislation will **provide funding opportunities to Vermont's towns, cities, and villages** – either directly from the US DOT or through the Vermont Agency of Transportation (AOT/VTrans). The presentation will be followed by a live Q&A session.

This session is intended for governing board members, town managers & administrators, highway foremen, treasurers, town clerks, water and/or wastewater supervisors or commissioners, planning commission members, and conservation commission members.

We extend a special thank you to the Office of Congressman Peter Welch for their assistance in making this Vermont-specific webinar possible!
